

2018 CGA Annual Meeting - Abstract List

Abstract #	Type of Presentation	First Name	Last Name	Title
1	Poster	Karin Francisco	Alvarez Lopez-Kostner	A RECURRENT DUPLICATION OF THE APC GENE IN CHILEAN FAMILIES WITH FAMILIAL ADENOMATOUS POLYPOSIS: STUDIES OF PATHOGENICITY AND CLINICAL PRESENTATION
2	Poster	Ingrid	Ambus	Group Counselling for the Familial Colon Cancer Clinic (FCCC)
3	Poster of Distinction	Arna Kristín	Andrésdóttir	Tumor spectrum in Lynch syndrome carriers in Iceland
4	Poster	Cindy	Benson	Counseling for PMS2 Related Breast Cancer Without Guidelines
5	Podium	Leah	Biller	A multi-institutional analysis of therapy-associated polyposis in survivors of childhood and young adulthood cancers
6	Poster	Carol	Burke	The Proximal Gastric White Mucosal Patch: A worrisome endoscopic feature in FAP
7	Poster	Allison	Burton-Chase	Assessing Advance Care Planning in Patients with Lynch Syndrome

8	Poster	Rachelle	Chambers	IHC for MMR Deficiency in Extra-colonic GI Tumors: Identifying Lynch Syndrome in the Not So Usual Suspects
9	Podium	James	Church	ATZ Neoplasia: A Comprehensive examination of a dangerous phenomenon
10	Poster	James	Church	Controlling oligopolyposis endoscopically: Good for the long term?
11	Poster	James	Church	Defining Sessile Serrated Polyposis
12	Poster	James	Church	Do FAP patients with an ileal pouch develop “classical” pouchitis?
13	Poster	James	Church	Sessile Serrated Polyposis is Not a Hereditary Syndrome
14	Poster	Carol	Cremin	A pilot study of small group genetic counselling in an unselected pancreatic cancer cohort
15	Poster of Distinction	Matthew	Daly	Interpretation of inheritable DNA variation: How much room for error across genetic services?
16	Poster	Beth	Dudley	The Impact of Genetic Counseling on Patient Engagement and Participation in Health Coaching Programs

17	Podium	Ed	Esplin	Underdiagnosis of Hereditary Colorectal Cancer in Medicare patients: genetic testing criteria miss the mark
18	Podium	Kelly	Fulk	Explaining an Atypical Immunohistochemical Pattern Using Paired Tumor/Germline Testing for Lynch syndrome
19	Poster	Cathy	Gilpin	Embryonal sarcoma: A rare manifestation of FAP?
20	Poster	Dena	Goldberg	Flipping the Model: Developing a Cutting-Edge Genetics Pipeline to Expand Access and Increase Capture of Patients at Risk for Hereditary Pancreatic Cancer
21	Podium	Michael	Hall	Prevalence and molecular correlates of mono- and bi-allelic pathogenic somatic mutations in the mismatch repair (MMR) genes among 24,233 histologically diverse tumors undergoing tumor genomic profiling
22	Poster of Distinction	Michael	Hall	The Prevalence of CFTR Mutations in Patients and Families Undergoing Risk Assessment for Pancreatic Cancer
23	Poster	Michael	Hall	Feasibility of perioperative immediate multi-gene panel testing (iMGPT) in cancer patients (pts) eligible for universal screening of mismatch repair (usMMR) for Lynch syndrome (LS): the PROTECT pilot
24	Podium	Tae	Hart	Health Anxiety in Lynch Syndrome: Severity and Predictors
25	Poster	Tae	Hart	Examining the impact of health anxiety on perceptions of personal health, children's health, and genetic testing among parents with Lynch syndrome

26	Podium	Brandie	Heald	EGD and Colonoscopy Findings in a Prospective Series of Patients with PTEN-Hamartoma Tumor Syndrome
27	Poster of Distinction	Brandie	Heald	Prevalence of Colorectal Cancer in a Cohort of Patients Carrying CHEK2 p.I157T – Considerations for Colorectal Cancer Screening
28	Poster	Hannah	Henige	High grade anaplastic astrocytoma in a 15 year old male with Lynch syndrome due to an MLH1 mutation: A case report
29	Podium	Karen	Hurley	Time from Genetic Test Result to First Colonoscopy in Lynch Patients with Personal/Family History of Breast and/or Gynecologic Cancers
30	Poster of Distinction	Gregory	Idos	Prevalence of Germline Mutations in Patients with Early-Onset Colorectal Cancer
31	Poster	Kristina	Ivan	An unusual tumor testing result for a colon cancer with absence of four MMR proteins
32	Poster	Jaime	Jessen	A Challenging Case of Endometrial Cancer Low Tumor Cellularity: Utility of Alternative Methods for Variant Calling
33	Poster	Boxiang	Jiang	Decision analysis: Segmental or Subtotal Colectomy in Lynch Syndrome
34	Poster	Eve	Karloski	Diabetes status in hereditary and sporadic pancreatic ductal adenocarcinoma

35	Podium	Jaihwan	Kim	Clinical Factors Associated with Gastric Cancers among Lynch Syndrome Patients
36	Poster	Lisa	LaGuardia	Shared Medical Appointments for Lynch Syndrome: Results from Early Experience
37	Podium	Sayoni	Lahiri	Detecting Unaffected Individuals for Lynch Syndrome (DUAL): An Institutional Experience
38	Podium	Stephen	Lincoln	An International Interlaboratory Study Of Complex Pathogenic Variants In Inherited Colorectal Cancer
39	Poster	David	Liska	Risk of Proctectomy after Ileorectal Anastomosis in Familial Adenomatous Polyposis in the Modern Era
40	Poster	Jessica	Long	Racial disparities in the uptake of gastrointestinal cancer risk assessment services
41	Podium	Gautam	Mankaney	Endoscopic Imaging Criteria to Identify High Risk Polyps Associated with Gastric Adenocarcinoma in Familial Adenomatous Polyposis
42	Poster	Gautam	Mankaney	Identifying clinical features associated with advanced gastric pathology in familial adenomatous polyposis
43	Poster	Nichole	Mans	FAP with Desmoids but an Attenuated Colonic Phenotype: A Cluster of Cases with Similar Variants

44	Poster	Megan	Marshall	Ovarian cancer in Lynch syndrome: A case-control analysis and investigation of tumor histology and phenotype
45	Poster	Danielle	McKenna	Colorectal cancer risk in Li-Fraumeni syndrome: is it time for earlier surveillance?
46	Podium	Elena	Meuser	Genomic and transcriptomic profiling of duodenal adenomas in familial adenomatous (FAP) and MUTYH-associated polyposis (MAP)
47	Poster	Kathryn	Mraz	APC pathogenic mutation in Afghan male with absence of gastric polyposis
48	Poster	Kathryn	Mraz	PALB2 mutation in Patient with Colorectal Cancer and Absent personal/family history of PALB2-cancer spectrum
49	Poster	Margaret	O'Malley	CDH1 Gastric Cancer Does Family History Change Your Risk
50	Poster of Distinction	Raghavendra	Paknikar	Analysis of 1200 cancer-related genes for pancreatic cancer germline susceptibility variants
51	Poster	Mala	Pande	Factors associated with surveillance colonoscopy adherence among patients with Lynch syndrome: results from a tertiary cancer center in the US
52	Poster of Distinction	Sara	Pirzadeh-Miller	Managing the Unexpected: Genetic Counseling of Complex Family Histories of Colon and Endometrial Cancer

52	Poster of Distinction	Amber	Gemmell	
53	Podium	Joshua	Prenner	Social Determinants of Health are Associated with Lower Rates of Genetic Testing in Individuals at Risk for Lynch Syndrome in the National Health Interview Survey
54	Poster	Megan	Priston	Hereditary Biallelic Mismatch Repair Deficiency (BMMRD) Syndrome in a Consanguineous Family
55	Poster	Felipe	Quezada	Results of a universal screening strategy for Lynch syndrome in patients with colorectal cancer treated in a public hospital from Chile
56	Poster	Felipe	Quezada	Risk of Metachronous Colorectal Neoplasia in Germline Confirmed Lynch Syndrome Patients
57	Poster	Alanna Kulchak	Rahm	Implementing Universal Lynch Syndrome Screening (IMPULSS): A multi-site study to identify strategies to implement, adapt, and sustain genomic medicine programs in different organizational contexts
58	Podium	Maegan	Roberts	Clinical presentation of Constitutional Mismatch Repair Deficiency
59	Poster	Maegan	Roberts	Clinical Presentation of Individuals with Mosaic APC Variants
60	Poster	Linda	Rodgers	Racial/ethnic disparities in genetic counseling for newly diagnosed colorectal cancer patients

61	Podium	Erin	Salo-Mullen	Clinical and molecular characterization of MSH3 monoallelic germline mutation carriers
62	Poster of Distinction	Dianne	Samad	Colorectal Neoplasia in Lynch Syndrome Patients
63	Poster of Distinction	Kara	Semotiuk	Genotype and Phenotype of Oligopolyposis in a Canadian Registry
64	Poster	Forum	Shah	The Complexities of Risk Management with PMS2 Inconclusive Results
65	Poster	Angela	Snow	Genetic Analysis of Familial Colorectal Cancer
66	Poster	Ilana	Solomon	Focus Group Analysis of “HOPE-Genomics” Novel Return of Results Tool
67	Poster	Il Tae	Son	Differences in oncologic outcomes between Lynch(-like) syndrome and sporadic colorectal cancer with microsatellite instability-high: A retrospective multicenter study
68	Poster	Virginia	Speare	Reducing Unnecessary Screening in Lynch-Like Syndrome with Tumor Sequencing
69	Podium	Jessica	Stoll	Lynch Syndrome and Breast Cancer: Association or Incidental Finding?

70	Poster	Jessica	Stoll	Practice Patterns in Genetic Cancer Risk Assessment among Diverse Practitioners over Multiple Years
71	Podium	Laura	Thomas	An international study of duodenal disease in MAP: incidence of polyposis and cancer
72	Poster of Distinction	Melissa	Truelson	Paired Tumor/Germline Analysis for Early Onset Colorectal Cancer: Resolution for High Risk Patients
73	Poster of Distinction	Travis	Washburn	A recurrent MSH2 pathogenic variant in Arabic patients with Lynch syndrome: Evidence for a possible founder mutation?
74	Podium	Aung	Win	Cancer risks for relatives of people with serrated polyposis
75	Poster of Distinction	Aung	Win	Diabetes mellitus, blood cholesterol and triglyceride levels and colorectal cancer risk in Lynch syndrome
76	Poster	Y. Nancy	You	Detection of Pathogenic Germline Variants Among Advanced Colorectal Cancer Patients Undergoing Tumor Genomic Profiling For Precision Medicine
77	Podium	Matthew	Yurgelun	Clinical factors associated with urinary tract cancers among individuals with Lynch syndrome
78	Poster	Kristin	Zajo	Pedunculated Adenomas Presenting with Anemia in a Patient with a Novel Somatic APC Mosaicism

79	Poster	John	Zimmerman	Compliance Among High-Risk Patients Identified Through Hereditary Cancer Population Screening
